Devoted to the Interests of the Mountain People

Vol. XX.

Five Cents Per Copy.

BEREA, MADISON COUNTY, KENTUCKY, JUNE 5, 1919.

One Dollar and Fifty Cents Per Year.

No. 48

Knowledge is Power—and the way to keep up with modern Knowledge is to read a good Newspaper.

## Commencement Edition --- Something Good for Every Reader

## Happy Fathers and Mothers

Commencement Day is not for graduates alone. It is the great day when fathers and mothers rejoice over the progress and the prospects of their sons and daughters.

Berea holds out both hands in cordial welcome to the fathers and mothers who attend Commencement to-day.

## Don't Be An Indian

The Indian was in many ways a noble man. He was a good hunter and a good fighter, and he knew how to raise corn. Why did he finally disappear from this beautiful country? It was principally because he did not read and study.

Now there are plenty of white families that are going through the same thing that the Indians went through. They cannot read, and they do not think. They own no books, they take no newspaper. They are dropping behind in the march of progress.

## Going to School

How many of our soldier boys when they got to camp and got to France wished that they had a little more education?

Uncle Sam has appreciated this and did much toward providing education of one form or another in the very camping places.

Now that soldiers are back they, and all other young men, and our young women as well, must plan to get an education, to get it while they are young, and to get a plenty.

Think of the Berea Summer School which begins next Friday. You could do more for yourself in that school than by any other thing you could possibly do this summer. And think of the Fall Term which begins on Wednesday, September 17th. Now is the time to get education.

## AUSTRIAN TREATY DELAYED

Presentation of Document to Enemy Delegates May Be Postponed Beyond Monday.

Paris, June 2.—The indications are that the presentation of terms of the Austrians will be postponed beyond Monday.

## President May Name Commission.

Paris.—Ignace Jan Paderewski, Polish Premier, made it known that he had decided to ask President Wilson to name a commission of Americans to go to Poland and investigate the charge regarding the treatment of the Jewish population there. The Premier's intention revealed in the making public of a letter which he has written to Herbert C. Hoover, head of the Allied Food Relief Committee.

## Toll Increases as Firemen Get Bodies.

Valence Sur Rhone.—Fire broke out during the performance in a moving picture house here and a large number of persons were killed or injured. The list of dead has reached 80, the bodies of 53 children and 21 women having been found. One man succumbed to suffocation. The injuries of most of those taken from the building by firemen were slight. There were approximately 100 of these.

## Coaches Plunge Down Embankment.

Omaha, Neb.—Twenty-five out of 276 casuals, including five officers and one Y. M. C. A. secretary, all members of the Five Hundred and Fifty-seventh Hoboken Casual Company, were injured slightly when five of the coaches bearing them to Presidio, San Francisco, plunged down a thirty-foot embankment into Salt Creek, one-half mile east of Ashland, Neb. The men were taken to Ft. Omaha.

College Tabernacle, Where the Commencement Exercises Will Be Held

## Berea College Commencement

Wednesday, June 4, 1919

Each Bugle Call Means Doors Open to the Tabernacle

Visitors who cannot find seats in the Tabernacle will find interesting exhibits in the chief college buildings from 8:30 to 11:00 and from 1:30 to 3:00. Get in the Tabernacle at 8:30 and 11:00 and at 1:30 if you possibly can!

## PROGRAM

## U. S. News

Boy Scouts of the United States by contributions of two cents each provided the wreaths which President Wilson laid on the graves of the American dead in the military cemetery at Suresnes, near Paris. The wreaths were dedicated to the memory of all American soldiers who fell in defense of the cause of democracy.

Ragapple the Great, the two-year-old Holstein bull, was sold for \$125,000 at the dispersal sale of the stock farm of Oliver Cabana, Jr., at Buffalo, N. Y., recently. The price paid is said to be the biggest ever paid for a sire. Another record was made when the cow, Fairview Mata, was sold to John T. Shannahan, of Buffalo, for \$35,000. She is a producer of 47.11 pounds of butter a week.

There will be a meeting of all the revolutionary leaders of importance from all parts of Mexico at the camp of General Carrera, insurgent leader in the state of Nuevo Leon, on the border line between that state and Coahuila, it was announced recently.

The name of Dr. Vasquez Gomez, now at San Antonio, Texas, is most prominently mentioned as the choice of the revolutionists for President of Mexico.

Daylight saving advocates in Congress, recognizing the strong sentiment which has developed in favor of the repeal of the law, now are basing their hopes on bringing about postponement of action on the repeal resolution so the law will not be abandoned until next year. With sentiment in the Senate more evenly divided than in the House, those opposing the repeal believe the resolution can be greatly delayed there.

The American seaplane NC-4 arrived at Plymouth, England, from Ferrol, Spain, May 31.

It made the last jump of its long journey of about 500 miles in 6 hours and 59 minutes, or at the rate of nearly 72 miles an hour. Keen interest in the event and the fine weather brought out large crowds. Three minutes after being sighted the great plane settled on the waters of the harbor while the crowd cheered and whistles blew a salvo from all steam craft in sight.

Arthur Thurman, competing in the 500-mile International automobile race on the Indianapolis speedway, Saturday, and his mechanic, Molineros' skull fractured when their machine overturned on the 44th lap.

Ralph DePalma driving a Packard, led at the first 100 miles. Paul Bablot, in a Ballott, was second; L. Chevrolet and G. Chevrolet, both driving Fontenacs, were third and fourth respectively.

All previous records of the speedway for that distance were broken, the average being 92.75-100 miles an hour.

The little church in Pall Mall, Tenn., where Sergeant York, "greatest soldier in the world," then a roistering mountaineer, was converted by a wander hill preacher, was packed recently as the fighter led in the singing. He deserted his

## World News

The German counter-proposals have been turned over to the Peace Congress and are being considered. They are bulky and contain over eighty thousand words, making a document longer than the treaty itself. There is some confusion in the wording and several supplementary papers have been handed in to make certain parts clearer. The Germans themselves have not been in agreement on different proposals and this is reflected in the document.

The German demands touch almost every part of the treaty which they were asked to sign. They object to the cession of territory, they say the reparations are too heavy to be met, they want to be admitted to the League of Nations at once, they refuse to accept responsibility for the war, and they will not allow the former Emperor to be handed over for trial by the Allies.

The French people have decided to restore the famous cathedral at Rheims. A good deal of the main wall still stands and in places the fire has turned the stone to colors more beautiful than before. Many of the stained glass windows were saved and can be replaced. It was at first the intention to allow it to remain in ruins as a monument to the destructiveness of war. The new French courage and hope for the future is reflected in the changed attitude.

The Atlantic has finally been crossed with success by an air plane, guided by an American aviator, Curtis Read. He landed at Lisbon, where the Portuguese gave him a royal reception. Later he went to Plymouth, England, in accordance with his original plan. It is a gratification to the United States to be the first to accomplish so great a feat. Information gained about atmospheric conditions will be of great value to future aviators.

Canada is making preparation for an extensive trade with Siberia in the near future. That country has been changing greatly in recent times and already contains a large part of the progressive element of the Russian population. The government at Omsk has held its own against the Bolsheviks and is likely to be recognized by the greater powers before long. Large docks are being constructed at Vladivostok, in anticipation of such trade.

Considerable opposition has arisen to a new law which the Senate had under consideration to remodel the school system of Hawaii in the interests of Americanism. The trouble came mostly from the Japanese and Chinese residents who are numerous and like to retain their own language and customs. Such pressure has been brought to bear on the Senate that the bill has failed to pass.

England is entering upon an extensive plan for furthering self-government of many of the outlying territories which she holds. This is true of Burma and of India. She has found, moreover, that something of the kind is necessary to ally the discontent in Egypt

At Bradshaw's sale of Aberdeen Angus cattle in Garrard county, 37 head averaged \$320.50. C. E. Marvin, of Paynes' Depot, paid \$925 for Brookside Blackbird 39th.

The American Forestry Association will endeavor to provide France, Great Britain, and Belgium with American Forest tree seed to replace the devastated forest regions of the war stricken countries.

The week of June 2 has been officially set apart as "Rooster Week." During that week the farmer and poultry man are urged to pen or kill all roosters. It is estimated that if every rooster in the State
